

**Name:** Almaden Chiropractic & Wellness - Dr. Philip Dieter

Overall outcomes* for :				
	Disc Herniation	Disc Degenerations	Sciatica Radiculopathy	Overall
86% or More				
71% to 85%				
56% to 70%				
41% to 55%				
Less than 40%				

**Comments:**

At this point I see decompression therapy as another tool in managing spine conditions. It doesn't provide a fix as so many people desire, but it still is a useful tool in managing the above mentioned conditions. It becomes challenging for insurance based patients to take advantage of a non-covered service even though it has so much value.

\* The above data is not peer reviewed. It is the subjective response from a Physician grading their clinical results with the SpineMED® System.

Dear SpineMED® Operator:

As part of our ongoing effort to continually improve the SpineMED® System, we are collecting clinical performance data from all users of the device.

Please complete this survey and fax it to 250-563-3177 or email a copy to [info@spinemed.com](mailto:info@spinemed.com).

Thank you for your support.

Best regards,

Tim Emsky
