

# Clinical Performance Survey

**Name:** Dr. Dexter Di Marco - DBA Family Chiropractic Center

| Overall outcomes* for : |                 |   |                        |         |
|-------------------------|-----------------|---|------------------------|---------|
|                         | Disc Herniation | Disc Degenerations  | Sciatica Radiculopathy | Overall |
| 86% or More             |                 |   |                        |         |
| 71% to 85%              |                 | Limited outcome 71 to 85. But followup care needs to be established protocol. |                        |         |
| 56% to 70%              |                 |   |                        |         |
| 41% to 55%              |                 |   |                        |         |
| Less than 40%           |                 |   |                        |         |

**Comments:**

**Very happy now that the lease is up. Works very well. Hypertrophy of ligamentum flavum causing stenosis.**

\* The above data is not peer reviewed. It is the subjective response from a Physician grading their clinical results with the SpineMED® System.

Dear Dr. Di Marco:

RE: 4040-HL-0606-TC, 4040-HLC-0606-CV

As part of our ongoing effort to continually improve the SpineMED® System, we are collecting clinical performance data from all users of the device.

Please complete this survey and fax it toll free to 866-990-4445, or email a copy to [info@spinemed.com](mailto:info@spinemed.com).

Thank you for your support.

Best regards,

Tim Emsky
